

The Leibniz Centre for Tropical Marine Research ([www.leibniz-zmt.de](http://www.leibniz-zmt.de)) in Bremen is a member of the Leibniz Association, which is supported by the German Federal and State Governments. Through its research, ZMT contributes to developing science-based strategies for sustainable use of tropical coastal systems. The working group Geoecology & Carbonate Sedimentology is seeking to fill an opening for two Postdoctoral researchers.

## 1. Postdoctoral Researcher

(12 months, starting date: 1.9.2019, Reference number: 108)

### Main tasks:

- Preparation of a proposal in the field of modern carbonate sediment productivity in the tropics; position of the postdoc is to be central in the proposed project
- Coordination with the partners at ZMT and beyond
- Support of the supervision of students in the work group
- Space for publications and the development of own ideas is provided.

## 2. Postdoctoral Researcher

(8 months, starting date: 1.4.2019, Reference number: 109)

### Main tasks:

- Support of on-going projects in the working group
- Development of a proposal, e.g. own position in the working group
- Space for writing publications is provided

### Your profile:

- Doctoral degree in the field of carbonate sedimentology
- Ideally experience in the writing of publications and proposals for third party funding
- Good communication and writing skills in English
- Team player, curiosity, creativity, reliability
- You can relate to the mission of ZMT.

### ZMT offers:

- A dynamic, interdisciplinary and international research environment
- A family-friendly working environment
- The ZMT Academy with a wide range of offers for early career scientists
- Our principles are excellence, self-responsibility, respect, reliability and transparency.

### Details of Positions:

- The positions are available for full-time (100%) employment.
- The salary is according to the German salary group TV-L 13.

**For further information:** In case of questions please contact Prof. Dr. Hildegard Westphal, leader of the working group Geoecology & Carbonate Sedimentology at [hildegard.westphal@leibniz-zmt.de](mailto:hildegard.westphal@leibniz-zmt.de).

ZMT is an equal opportunity employer. Applicants with a migration background are welcome. Disabled persons with comparable qualification receive preferential status.

**Submission of Application:** Please submit a curriculum vitae (including publication list), a brief statement of motivation and research interests, and the names and contact information of two referees. The documents should be emailed as a single pdf file to Mrs. Lena Oehlmann ([bewerbung@leibniz-zmt.de](mailto:bewerbung@leibniz-zmt.de)) indicating the reference number 108 or 109, respectively, and the name 'Carbonate Sedimentology'. Closing date is March 7, 2019 or until the positions are filled.
