

The Leibniz Centre for Tropical Marine Research (www.leibniz-zmt.de) in Bremen is a member of the Leibniz Association, which is supported by the German Federal and State Governments. Through its research, ZMT contributes to developing science-based strategies for sustainable use of tropical coastal systems.

New Digital Technologies advance integrating, analysing, exchanging and sharing of environmental data. In cooperation with the Institute of Marine Science, Zanzibar, ZMT is implementing a project to develop strategies to improve the application of innovative technologies to handle marine biodiversity data in East Africa. For this project ZMT invites applications for a

Project Coordinator

(Reference number: 99 - New Digital Technologies)

Duties and responsibilities:

- Implementation of project activities
- Evaluation of the status of data bases on marine biodiversity in East Africa
- Involvement of relevant stakeholders
- Organisation and facilitation of stakeholder workshops
- Public relation and social media coverage of the project
- Preparation and writing of project products (fact sheets, reports, policy briefs)

Requirements:

- PhD or equivalent expertise in Marine Biodiversity Research or other relevant field
- Experience in international research cooperation in the tropical context and proven ability to think strategically
- Proven experience in outreach, especially in social media communication
- Interest in and knowledge of current developments in Data Science
- Fluency in English

Beneficial qualifications:

- Knowledge of the East African institutional landscape for marine biodiversity data archiving
- Knowledge of Swahili

We offer:

- An exciting working environment in an interdisciplinary and internationally oriented institute and research project
- Possibilities to get involved in an international professional network and participate in a field of outstanding scientific, political, and public impact
- A family-friendly work environment

This part-time position (75 %) is limited to two years, and will start as soon as possible. The salary will be paid in accordance to the German TV-L EG13 (if the personnel requirements are fulfilled). ZMT is an equal opportunity employer. Applicants with a migration background are welcome. Disabled persons with comparable qualification receive preferential status.

Please, send your application until 10th December 2018 as a single pdf under reference number "99 - New Digital Technologies" to Mrs. Lena Oehlmann, E-Mail: bewerbung@leibniz-zmt.de. The position will stay open until filled, but evaluation of applications will start on 10th December 2018.

For specific information about the project, please contact PD Dr. Hauke Reuter (hauke.reuter@leibniz-zmt.de).

Leibniz Centre for Tropical Marine Research, Fahrenheitstrasse 6, D-28359 Bremen.
