

The Federal State of Bremen as a Location for Capacity Development

PROGRAMME

February 11, 2019

Vertretung des Landes Bremen beim Bund Hiroshimastraße 24, 10785 Berlin

Aim of the Event

The dynamics of today's world show that (further) education and training are fundamental prerequisites for stable development and sustainable use. Capacity development aims at strengthening and self-renewal of skills and abilities in order to ultimately achieve self-regenerative autonomy and eye-level in the academic, economic and administrative fields. It is thus the basis for strong international partnerships and for social stability.

Capacity development is a long-term task, which many institutions in the Federal State of Bremen have consciously integrated in their activities. As part of our event, we would like to highlight the portfolio of capacity development in the Federal State of Bremen. A selected number of institutions will provide an insight into various forms of capacity development and a panel consisting of alumni and science strategists will discuss further requirements.

We cordially invite you to join us on

Monday, February 11, 2019 at the Vertretung des Landes Bremen beim Bund

in order to gain an insight into the activities, possibilities and successes of capacity development activities in the Federal State of Bremen and to engage in a discussion with us to develop new partnerships or own ideas.

The event will take place mainly in German and partly in English.

13:00 Arrival, Coffee, Snack Greetings and Introduction 14:00 Ulrike Hiller, The Free Hanseatic City of Bremen's Authorized Representative for Federal and European Affairs and Development Cooperation 14:10 Dr. Heide Ahens, Head of the Department Universities & Research at the Senator for Science, Health and Consumer Protection of the State of Bremen and Chair of the Supervisory Board of the Leibniz Centre for Tropical Marine Research - ZMT 14:25 Prof. Dr. Hildegard Westphal, Scientific Director, Leibniz Centre for Tropical Marine Research – ZMT Presentation of Selected Programmes and Institutions 14:40 Dr. Werner Ekau, Head of Ecology Department, ZMT 28 Years of Capacity Development by ZMT 14:55 Prof. Dr. Hajo Zeeb, Head of Prevention and Evaluation Department, Leibniz Institute for Prevention Research and Epidemiology – BIPS BIPS as a WHO Collaborating Centre 15:10 Prof. Dr. Arvid Kappas, Dean and Professor of Psychology, Jacobs University Bremen Bachelor Education at an International Private University 15:25 Prof. Dr. Karen Wiltshire, Deputy Director, Alfred Wegener Institute, Helmholtz Centre for Polar and Marine Research – AWI Partnership for Observation of the Global Ocean (POGO) 15:40 Dr. Lars Stemmler, Head of International Projects, Dremenports Port Management – Capacity Development in Practice 15:55 Coffee Break 16:30 Panel Discussion: Requirements and Needs for Capacity Development Martin Foth-Feldhusen, Deputy Head, Regional Office North, Deutsche Gesellschaft für Internationale Zusammenarbeit – GIZ Dr. Awni Behnam, Honorary President, International Ocean Institute – IOI Dr. Robert Katikiro, Lecturer Agricultural Sciences and Fisheries Technology, University of Dar es Salaam, ZMT Alumnus Prof. Dr. Gesine Schwan, President and Co-Founder, HUMBOLDT-VIADRINA Governance Platform gGmbH Prof. Dr. Margret Wintermantel, President, German Academic Exchange Service – DAAD 18:00 Further exchange during drinks and snacks Closing Remarks: Prof. DrIng. Matthias Kleiner, President, Leibniz Associatio
