**Instructor:**

Dr. Birte Pfeiffer

**Course description:**

The course consists of two complementary course sessions. The first session will provide a general overview of research data management at all stages of the research cycle – from project planning through data analysis to data publication and archiving. The second session will explore specific topics in greater depth depending on the preferences of the course participants.

**Target group:**

The course is for all ZMT Alumni and Doctoral Candidates at ZMT. Guest researchers and interested Postdocs can participate as well.

**Credit:**

Participation in both course days is required. You can receive a certificate of attendance for the course.
